Attenzione:

--
Per una corretta movimentazione dei divani, è necessario ricordare questa semplice regola: Il divano deve essere sempre sollevato da terra e poi spostato nella zona desiderata.

Bisogna assolutamente evitare di spingere o trascinare il divano sul pavimento, o di inclinarlo, facendo gravare il peso sui piedini.

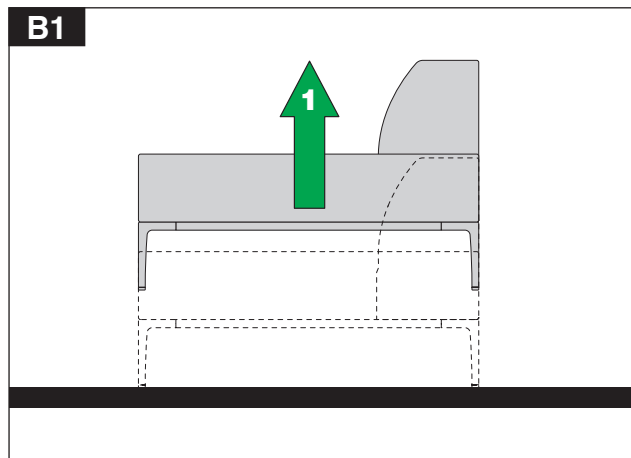

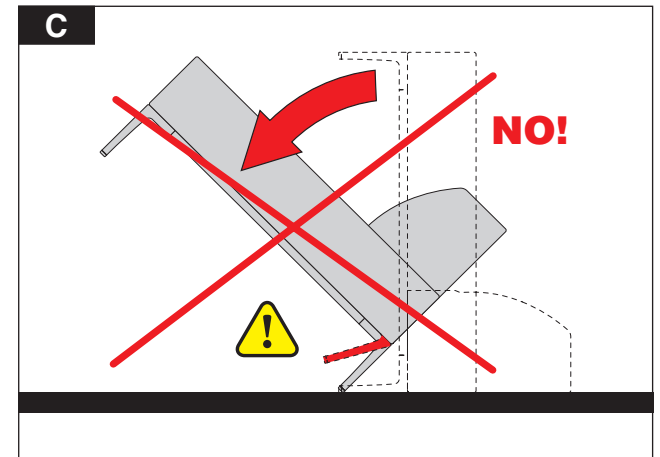

Queste operazioni possono danneggiare i piedini del divano, oltre al pavimento stesso.

Notice:

--
It is necessary to remember this simple rule in order to handle sofas correctly: before moving the sofa, it must always be lifted off the ground.

It is absolutely needed to avoid pushing or dragging the sofa across the floor, or tilting it, placing the entire weight on the feet.

These procedures can damage the sofa feet, as well as the floor itself.
